## Career Objective

---

Equipped with a strong background in both front-end and back-end development technologies, I am dedicated to delivering high-quality, scalable web applications. Seeking a challenging role where I can leverage my expertise in HTML, CSS, JavaScript, and databases to contribute to the success of a forward-thinking company. Committed to staying abreast of emerging technologies and collaborating with cross-functional teams to drive impactful projects from conception to completion.

## Education

---

### Higher secondary

Howrah st john's high school	80%	2020 - 2021
------------------------------	-----	-------------

### Bachelor of technology in CSE-Ai

Techno India University	6.82 cgpa	2022 - 2026(est)
-------------------------	-----------	------------------

## Skills

---

### Technical

- HTML5, CSS3, Javascript
- Node JS, Express JS
- SQL, MongoDB
- HTTP and REST
- Git/GitHub

### Interpersonal

- Project Management Skills
- Content writing
- Teamwork
- Critical Thinking
- Communication Skills

## Projects

---

### Portfolio website

Designed and developed a professional portfolio website showcasing my projects, skills, and experience using **HTML, CSS, and JavaScript**. Implemented responsive design principles to ensure optimal viewing experience across various devices and screen sizes.

### Weather app

Developed a responsive web application using Open Weather Map to provide real-time weather information. Integrated APIs to fetch weather data and display it dynamically on the website.

Technologies Used: **HTML, CSS, and JavaScript**

### Country guide app

Developed a comprehensive Country Guide web application using **RESTful** APIs to provide users with detailed information on various countries, including currency, languages, and essential facts.

Technologies Used: **HTML, CSS, JavaScript, and RESTful APIs**
